MEMORANDUM FOR: Participants of Project USEFUL No. 10

I wish to express my sincere thanks and appreciation for the excellent presentations made at Project USEFUL No. 10. Courses of this kind which promote a better understanding by military officers of the Agency's roles, missions and capabilities are highly desirable for our greater effectiveness as the Central Intelligence Agency. The professional manner in which Project USEFUL was conducted reflected great credit upon the Agency and was a tribute to the dedication and competence of Agency personnel.

The written comments of the military officers were very complimentary to the Agency and indicated that the presentations were effective in achieving a realistic and mature understanding of the Agency's roles and missions and an appreciation of our capabilities and limitations for supporting military operations. The officers also expressed the conviction that their attendance in the course would enable them to work in the future to better advantage with their "opposite numbers" from the Agency.
